

DEADLINE FOR PAPER SUBMISSIONS

LACCEI reminds you that the deadline for submission for Full Papers and Work in Progress papers for LACCEI 2020 international Multiconference through EasyChair Platform is **March 1st**.

The thematic topics can be found [here](#).

LACCEI 2020, BUENOS AIRES

The 18th LACCEI 2020 Conference, designated by the OAS as, "The Summit of Engineering for the Americas" will be held this year in Buenos Aires, Argentina. The conference will be a wonderful setting to strengthen relations and communication between university institutions, and to sharing knowledge with students and experts from all over the world.

The Consortium of Engineering Institutions of Latin America and the Caribbean, LACCEI, is pleased to invite you to participate in this eighteenth edition of the LACCEI International Multiconference, from July 29 to 31 of this year, which this time will have as its central theme, "**Engineering, Integration, and Alliances for a Sustainable Development**".

ARGENTINA, 150 YEARS OF ENGINEERING

150 ING

la Argentina celebra
su ingeniería
1870-2020

On June 6, 1870, the first 12 engineers were received at the University of Buenos Aires, from where Luis Huergo is well known. With them, the history of the Argentinian Engineering began. This year, the first 150 years of life in engineering are celebrated, which will be commemorated throughout the year and in all the faculties of the country.

That is why, from the Federal Council of Engineering Deans, COFEDI, they invite all academic units to join national celebrations with proposals at the local level.

What is the objective? Commemorate this important event, while shown to the community what is the social role of the engineers, how Argentinian engineering is reflected in everyday life and, why not, also wake up early vocations so that more young people can see this profession as their own life project.

"Engineering is an engine of change and transformation that improves the quality of life of the whole society. That is why we want to take this event as an opportunity to show the works that are carried out in our country, imagining Engineering and even being an engineer for a day. These will be the axes with which we will work throughout 2020", explained **José Basterra**, president of CONFEDI.

EVENTS AND ACTIVITIES

- 14^a Annual International Conference on Technology, Education and Development, INTED2020, Valencia, Spain, March 2 – 4, 2020
- Congress CASE for Latin America "Institutional Development (Advancement)" Cartagena, Colombia, March 18 – 20, 2020
- IV IEEE World Congress in Engineering Educación (EDUNINE 2020), Bogota, Colombia, March 15 – 18, 2020
- The registration for LACCEI 2020 conference is open: <http://laccei.org/Beta2/Registration/InformationReg.php>
