

## A CALL TO LACCEI DEANS

### Meeting of Deans of Engineering from Latam and the Caribbean of LACCEI

The Face-to-Face Planning Meeting of Deans of Engineering of LAC of the Latin American and Caribbean Consortium of Engineering Institutions (LACCEI) is being held from May 30 to June 1 in San Pedro Sula, Honduras, at the headquarters of the Technological University of Honduras. This will be a preliminary planning meeting to the companion First Face-to-Face Meeting of the Council of Deans of Engineering of ALyC of LACCEI to be held at Florida Atlantic University in Boca Raton, Florida, USA.

Six conferences of deans, representing universities in Latin America and the Caribbean, will be held within the framework of the meeting:

1. Dr. KEVIN HUGGINS, Rector, Harrisburg University Panama: "Building a Culture of Continuous Improvement"
2. M.S. Eng. MIGUEL ANGEL SOSA, Dean, National Technological University, Argentina: "Technological Development and Transfer in FI - Criteria for its Evaluation"
3. Dr. JUAN HERNANDEZ PAZ, Dean, Autonomous University of Juarez, Mexico: "Process of Curriculum Redesign of the Engineering Programs of the Institute of Engineering and Technology"
4. Dr. MARIO G. JUAREZ PEREZ, Dean, Don Bosco University, El Salvador: "Accreditation of Engineering Careers before ACAAI at the UDB"
5. M.S. Eng. LIBIS VALDEZ CERVANTES, Dean, Antonio de Arevalo Technological Foundation, Colombia: "Innovation for Development: a Key Factor for a Transformative Recovery in Latin America and the Caribbean"
6. M.S. Eng. RICHARD MAZARIEGOS, Dean, Mesoamerican University of Guatemala: "Experience in Technology Transfer at the Mesoamerican University"

## CALL FOR PAPERS FOR MATILDA VOLUME FOUR

The Latin American Open Chair of Matilda and Women in Engineering (CAL Matilda) is calling for authors to be part of the fourth volume of the Matilda book.

CAL Matilda has taken the initiative (on behalf of CONFEDI, ACOFI and LACCEI) of giving continuity to Matilda's publications as a way of contributing to the visibility and appreciation of women in the field of engineering, promoting the study of engineering in girls and adolescents, encouraging engineering students in their careers, and contributing to equal rights and opportunities in the engineering world.

We are calling on authors to contribute stories of women in engineering, particularly stories on how their interest in an engineering career began, about their lives in the academic world, their teaching in universities, and in their professional job search. Also of importance to us are stories about the people and mentors that helped guide women through their education and careers—examples of what can motivate girls and young women to try the world of engineering.

This link gives you the terms for the papers: <https://bit.ly/38NG9BD>

We are available to answer any questions you have and look forward to receiving your papers prior to August 8, 2022. You can send your paper or contact the Editorial Committee at [libromatilda4@gmail.com](mailto:libromatilda4@gmail.com)
