The LACCEI 2021 conference will grant the **"Technology with Social Impact"** award to the authors of the paper and the institutions and/or other entities linked to the investigation, whose development has contributed to the progress of the community in the environmental, socio-economic, or cultural sphere.

Papers can be submitted through our EASYCHAIR platform from November 1.

In the October edition of INNOVATION LACCEI Magazine, the information will be expanded.

PROCEEDINGS LACCEI 2020

The proceedings of the LACCEI 2020 VIRTUAL Conference are available on its website, at the link:

http://laccei.org/index.php/laccei-proceedings/

Since 2006, the Multi-conference includes the publication of proceedings on its web page, which are composed of the papers that were submitted by the authors and that were finally accepted for publication. These articles are published with ISBN and ISSN. The full papers also have D.O.I. and are indexed by SCOPUS.

A fundamental aspect in our conference is that the papers must be an original writing and that it cannot be published previously.

The only exception are guest papers from LACCEI partner conferences. These papers are published with a clarifying note indicating that it is a "Republication" and this is done with the consent and authorization of the respective organization and its authors. The purpose of the invited papers is to make their publication with indexing and with free online access.
