

MULTI-CONFERENCE LEIRD 2022

LEIRD 2022 -LACCEI Multiconference on Innovation, Entrepreneurship and Regional Development- the international multidisciplinary conference, led by Dr Paola Amar, which served as a "meeting point" and annual meeting of the main actors of innovation and entrepreneurship in the region of Latin America and the Caribbean with the purpose of sharing knowledge, practices and strategies, as well as promoting cooperation between individuals and organizations, was held with resounding success from December 5 to 7.

This top-level multidisciplinary event had participants from most countries of the American continent, who were able to present their projects and discuss the most recent trends, as well as the challenges and proposed solutions. Here some of his main statistics.
