

## GLOBAL FORUM FOR EUR-ACE ACCREDITED PROGRAM LEADERS

The **EURACE CONNECT 2025 Global Forum** for EUR-ACE-Accredited Engineering Programs was held in Lisbon on May 29-30, 2025. LACCEI representatives were Dr. María Larrondo Petrie, Executive Director, and Dr. Luis Fernando Martínez Arconada, VP of Finance.

This forum is a pivotal event for EUR-ACE-accredited institutions, fostering collaboration that strengthens the quality and global recognition of engineering programs.

Leaders of EUR-ACE-accredited programs from around the world were invited to this exclusive international forum designed to foster collaboration among top-tier institutions.

Organized by **ENAE**, this flagship event brought together accredited programs to explore meaningful collaborations in research, education, and innovation.

This two-day forum highlighted the value and global impact of EUR-ACE accreditation, offering a unique platform for participants to:

- Connect with colleagues from diverse institutions
- Share knowledge and best practices
- Engage in strategic discussions that shape the future of accredited programs

By ensuring broad institutional representation, this initiative promotes the full value of accreditation and opens new avenues for impactful global cooperation. This opportunity will help shape the next chapter of collaboration in higher education.

The forum featured an engaging mix of panel discussions, workshops, and keynote addresses, all designed to facilitate meaningful networking and foster in-depth dialogues among participants.

As each participating program holds the prestigious **EUR-ACE label**, this event brings together only engineering programs of the highest, verified quality, enabling an environment of mutual trust.

With a strong emphasis on structured and open networking, the forum encourages attendees to share experiences, challenges, and successes in engineering education and accreditation, creating strong avenues for future collaboration based on shared standards and values.

## DEMOcon 2025

### IEEE Conference on Digital Education and MOOCS 2025

OCTOBER 5-7, 2025

BOCA RATON, FLORIDA USA

## 2025 IEEE Digital Education and MOOCS Conference

previously known as LWMOOCS

We are pleased to announce that this year's **DEMOcon Conference** will be held at **Florida Atlantic University** in Boca Raton, Florida, USA. Formerly known as LWMOOCS.

This **IEEE** conference offers academic, government, and industry professionals a platform to explore MOOC research, as well as the practicalities of developing and delivering MOOCs and digital education to diverse global audiences.

Now in its eleventh year, DEMOcon is solidifying its reputation as a renowned international forum for collaboration, networking, learning, and sharing the latest developments in MOOCs and digital education.

Held on the Florida Atlantic University campus, this event seeks to revitalize and expand the conference discourse to include blended learning and other open course modalities.

This year, we have made an exciting development: we are expanding our focus beyond MOOCs to encompass facets of digital education.

Join us as we transition from the "**Learning with MOOCS**" conference (LWMOOCS) to the "**Digital Education and MOOCS**" conference (DEMOcon).

Now in its tenth year, DEMOcon is consolidating its position as a renowned international forum for collaboration, networking, learning, and sharing of the latest developments in MOOCS and digital education.

Held on the Georgia Tech campus, this event seeks to revitalize and expand the conference discourse to include blended learning and other open course modalities.
